

### Bobby Hill Bio:

Bobby Hill has been keeping and breeding reptiles for over 30 years, starting as a young child in Florida. He started breeding colubrids in the late 70's and early 80's. Later he concentrated on varanids, then he met his first Tegu and has concentrated on *tupinambus* ever since. He produces *T. marianae*, both Argentine Black and Whites and Extreme Giants, and *T. rufescens*. Upcoming projects include *Lacerta lepida*, the Jewelled Lacerta.
